

SHOBNALL PRIMARY SCHOOL

SPORTS PREMIUM IMPLEMENTATION:-

School Budget received £9,020 for 1ST April 2014 to 31ST March 2015

AUDIT AND CONSULTATION – 2014-15- 2014

Governors and Staff support Healthy Living initiatives which include promoting PE so that more young people take part in physical activity. We are now in the second year of the Sports Premium, this is a grant that has been given to all schools by the Government. We intend to introduce children to new sports as well as become more skilled in the everyday sports. As well as delivering physical benefits, we know that sports help children to learn to be disciplined, to take turns and to strive to do their best. By encouraging children to be more prepared to do this in an outside or sports environment, we will also utilise these characteristics of sport so that they can be transferred to the classroom.

TARGETS FOR SPORTS PREMIUM – 2014-2015

- To support Teachers in the planning and delivery of P.E. across the school, especially with employment of three NQTs.
- To extend the opportunities available to pupils through deployment of a dance and fitness coach - Mrs Andrea Osbourne, Specialist PE Teachers – James Attwood and Sue Welch and Staffordshire County Council Bikeability Team.
- To employ a specialist swimming teacher to lower the ratio in swimming.
- To increase participation for all in traditional and alternative sporting activities and therefore offer wider sporting opportunities for all pupils.
- To promote P.E. achievement through the school website.
- To provide training for pupil playground leaders to introduce multi-activities across EYFS, Key Stage 1 and Key Stage 2.
- To promote active healthy lifestyles.
- To achieve Gold Kite Mark Status.

SPORTS PREMIUM IMPLEMENTATION:-

School Budget received £9,020 for 1ST April 2014 to 31st March 2015

School Budget received £9,020 for 1ST April 2014 to 31ST March 2015

IMPACT – 2013-2014

- As a result of offering wider sporting opportunities for all pupils ie. dance, movement and drama, bikeability, balance bikes, there has been a growth in the range of traditional and alternative sporting activities.
- Through the introduction of balance bikes, children in early years have had the opportunity to develop skills to balance and improve co-ordination, agility, core strength and flexibility.
- Hiring specialist PE Teachers or qualified sports coaches has developed and improved partnership work for physical education, especially for the three new NQTs.
- Pupils have greater engagement as evidenced through pupil achievement and involvement as illustrated on the school website. The increased amount of time that children are taking part in PE activity improves links with other sports clubs and the wider community.
- As a result of developing leadership skills within our young pupils, we have enhanced the playtime experience to enable pupils to become more active and engaged. Furthermore by working with James Attwood, the Lunchtime Supervisors have developed their knowledge and skills in encouraging pupils to engage in a stimulating learning environment.
- Through the Forest Schools initiative and the Healthy Families Initiative in partnership with Burton Albion Trust, we have engaged pupils and their families to engage in a wider range of sporting opportunities. This has contributed to their overall achievement and their greater social, spiritual, moral and cultural skills.
- As a result of the greater sporting opportunities available we have achieved the criteria for Silver, we must now enter C Teams into events to develop and even greater access to competition for all pupils.
- As a result of the informative website, PE is now promoted successfully and provides information and pictorial evidence of school sport throughout.
